treasure THE TRASH

Once upon a time there was a planet,
which was famous for an infinite diversity of humans, animals,
flowers, trees, oceans, rivers and mountains. It was full of colors, shapes, smells,
sounds and wonders. This was the magical little planet called TREASURE.

The universe, creator of the little planet, was shocked that the humans who were
created to take care of TREASURE, did exactly the opposite: they covered the whole planet
with trash. One day the little planet could neither see nor breathe. The sea turned
brown, the air grey and the plants pale. And as the birds stopped singing
and the bees stopped flying, the people got sick.

Finally, they realized, that the huge amount
of trash was the reason for all this. The humans were sad
and wanted to have the wonderful beauty of TREASURE back.
Just how could they safe their planet and
find all the treasures again?

Children who had to live within all the trash,

made the miracle possible: they created instruments out of trash,

formed an orchestra and played symphonies. Their idea inspired the whole world!

People became alchemists and shared the ideas of upcycling all over the planet.

Suddenly, the planet TREASURE recovered and its wonderful beauty was visible again.

They realized that their planet is a living creature and there could be no doubt that it deserved the

same rights as them, the humans. The rights were created to protect their beloved

planet Treasure forever. From this day on they took care

of it very well and didn't hurt their planet ever again.

All is well that ends well: the universe was pleased that

the humans finally understood and did what they were meant to do.

And the humans were happy that the little planet TREASURE was

once again transformed into a paradise, with all its wonders and miracles

for everything and everyone!

AN OLD METAL FORK...

...WITH NICE LONG TINES

YOU'LL NEED A FORK (WITH LONG TINES), PLIERS, A HAMMER, AND PROBABLY SOMEONE WITH MUSCLES!

MUSCLES MIGHT BE HELPFUL

1. BEND FORK USING A CLAW HAMMER (OR VICE) FOR LEVERAGE.

VICE

2. BEND UP

NOW BEND THE FORK TINES UPWARDS (AS SHOWN ABOVE).

3. STABLE BASE

CONTINUE TO BEND FORK AND CREATE A STABLE BASE.

4. USE PLIERS TO BEND FORK TINES OUTWARDS.

5. NOW BEND THE TWO CENTRAL TINES APART (AS SHOWN).

FINALLY, CURVE THE TINES USING PLIERS UNTIL AN EGG IS SUPPORTED SNUGLY.

6.

African proverb

THE LITTLE PLANET TREASURE RIGHTS

○ RESPECT : Respect planet's Treasure animals
and plants with all its diversity.

****

○ CARE: Take care of planet's Treasure beauty and health for the present
and all future generations.

****

○ SUSTAINABILITY: Live life according to limited resources of planet Treasure
and realise a culture of recycling and upcycling.

****

○ APPRECIATION: Treasure the treasures of planet Treasure!
